# A-Lift® (Aesthetic-Lift)

Like a facelift without the downtime!

A-Lift® is a non-invasive age management prevention program that aids in lifting and tightening of the skin. It addresses the visible signs of ageing, revising wrinkles and fine lines and restoring a brighter, firmer tighter more youthful complexion.

## WHO IS IT FOR?

Anyone who wants to maintain or regain healthy youthful-looking skin, look years younger, invest in the long-term health of your skin. Always speak to your DMK Skin Technician about your cosmetic goals.

## HOW DOES IT WORK?

A-Lift® treatments are part of a 12-week program. It works by stimulating the underlying structures of the skin, eliminating redundant skin cells, wrinkles, fine lines, pigmentation and uneven texture and skin tone, tightening facial muscles whilst also addressing redness and unsightly capillaries. A-Lift® delivers specific formulations that work on the skin's functions to encourage optimum performance.

# Instant Lift

The special occasion LIFT!

Famous for its instantly tightening and lifting qualities, this treatment also brightens and firms dull skin before a big event so you look your very best. This treatment is designed to lift tired, sagging facial muscles with instant results.

## WHO IS IT FOR?

Our go-to facial before a special event or someone's big day. This treatment is perfect for men and women who are just starting to notice the signs of ageing or anyone wanting a quick one-off treatment. Get your skin red carpet ready!

## HOW DOES IT WORK?

The unique application of the Instant Lift sends deep, contracting signals to the facial muscles. This effect tightens and 'lifts' the 57 different facial muscles through a contracting process. It works by increasing circulation bringing oxygenated blood flow and nutrients to the contacted muscles to rebuild a stronger, healthier younger-looking skin.

Rebuild a stronger, healthier younger-looking skin with DMK's lift treatments.

# Pro Lift

Give your skin a professional lift and pick-me-up!

Pro Lift revitalises thickened, uneven sun-damaged, sluggish or sagging skin with this progressive resurfacing and rebuilding procedure. This treatment strengthens and tightens the skin, leaving a radiant, bouncy, and firm complexion.

## WHO IS IT FOR?

This skin tightening and rejuvenating professional treatment is ideal for mature skin, anyone who wants to look younger, or darker tones who are prone to hyper-pigmenting.

## HOW DOES IT WORK?

The Pro Lift treatment can be a one-off or a program, performed over six to eight weeks. It hydrolyses dead cell material, increases dermal hydration, improves circulation bringing fresh oxygen and nutrients to skin cells, increases lymphatic drainage and enhances collagen production. The DMK Muscle Banding treatment restructures the new skin from deep within.
